Complaint Regarding – Louisville Metro Police Dept. & Craigslist Date Stalker

Dear Mr. Howard Marshall,

For 10 years and beyond, I have been terrorized by the Louisville Metro Police Dept. I have previously filed complaints regarding this issue with your office, however nothing has been done and the issue continues to escalate.

It has now escalated to a Craigslist Date Stalker trying to gain entrance into my home, which I know is related to the severe and constant harassment coming from the Louisville Metro Police Dept., as I do not go on Craigslist looking for dates with anyone. The enclosed *Exhibit 1 - is a "\$200 Reward Flyer," that I have circulated that also has a brief description of this Craigslist Stalker's trying to gain entrance to my home.* Also enclosed *Exhibit 2 - is a DVD of all of the occurrences that took place at my home between January 7, 2015 through January 9, 2015 leading up to the Craigslist Stalkers appearance at my home on January 9, 2015.*

**The following is a brief synopsis of the 6 videos that you will see on the DVD:**

**Video 1**

**Jan. 7, 2015** - I got up and plugged in my TV as I normally do, as I unplug some of my electrical appliances due to constant electrical interference. When I plugged in the TV, I heard my breaker box make a noise and the power went out in my den and kitchen, however the stove was still working. I tried throwing the breaker box and the power was still off in the same areas, however in the kitchen when I turned on the stove, as it was the only thing working in the kitchen, the hallway light to the basement started blinking and the breaker box started beeping, as you will see in this video. I contacted an electrician and called Louisville Gas and Electric Company (LG&E). While I was waiting for the Electrician LG&E arrived and told me it was probably their fault and that they would work on the lines to my house as you will see in video 2 on the DVD. I also noticed that my computer and my TV that day were also going off and on and the sound was being turned off and on on my television set each time I thought of a station that I wanted to watch, as if someone were turning it off and on.

**Video 2**

**Jan. 7, 2015** - Louisville Gas & Electric came to work on the lines on my house. He stated a hot wire burned out. He **DID HAVE** identification & did show it to me.

**Video 3**
